DETAILED ACTION

Applicant's arguments and amendments filed 5/16/2007 have been fully considered and are sufficient to overcome the rejections under 35 USC 101.

Reissue Applications

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-10 and 21-40 are rejected as being based upon a defective reissue Oath/Declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 28-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 28 recites the limitation "where it was converted to seismic energy" in step (b) of the claim. There is insufficient antecedent basis for this limitation in the claim. The term "where it was converted" implies that this limitation is already present. Applicant should amend the claim language to include a step where the electric energy is converted to seismic energy, or some other claim language to give antecedent basis for the term "was converted to seismic energy."

Conclusion

The cited prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
